CONTENTS
MAY 1998 VOLUME 139 NUMBER 1

The Third *New Phytologist* Symposium, Lancaster University, UK, 3–5 September 1997. Major Biological Issues Resulting from Anthropogenic Disturbance of the Nitrogen Cycle

Editorial 1

Programme 3

Atmospheric nitrogenous compounds and ozone – is NO_x fixation by plants a possible solution? By A. R. Wellburn 5

The atmospheric budget of oxidized nitrogen and its role in ozone formation and deposition. By D. Fowler, C. Flechard, U. Skiba, M. Coyle and J. N. Cape 11

Oxides of nitrogen and ozone: can our plants survive? By P. J. Lea 25

Ammonia: emission, atmospheric transport and deposition. By W. A. H. Asman, M. A. Sutton and J. K. Schjørring 27

Nitrogen deposition and its contribution to nitrogen cycling and associated soil processes. By K. W. T. Goulding, N. J. Bailey, N. J. Bradbury, P. Hargreaves, M. Howe, D. V. Murphy, P. R. Poulton and T. W. Willison 49

Atmospheric ammonia and impacts of nitrogen deposition: uncertainties and challenges. By J. K. Schjørring 59

Impact of gaseous nitrogen deposition on plant functioning. By I. Stulen, M. Perez-Soba, L. J. De Kok and L. van der Eerden 61

Consequences of high loads of nitrogen for spruce (*Picea abies*) and beech (*Fagus sylvatica*) forests. By H. Rennenberg, K. Kreutzer, H. Papen and P. Weber 71

Qualitative and quantitative changes in plant nitrogen acquisition induced by anthropogenic nitrogen deposition. By T. Näsholm 87

Ambient ozone effects on forest trees of the eastern United States: a review. By A. H. Chappelka and L. J. Samuelson 91

Impacts of ozone on forests: a European perspective. By L. Skärby, H. Ro-Poulsen, F. A. M. Wellburn and L. J. Sheppard 109

Ozone and forest trees. By M. Broadmeadow 123

Ecological effects of atmospheric reactive nitrogen deposition on semi-natural terrestrial ecosystems. By J. A. Lee and S. J. M. Caporn 127

Effects of ozone on wild plants. By A. W. Davison and J. D. Barnes 135

Regulation of plant nitrate assimilation: from ecophysiology to brain proteins. By C. MacKintosh 153

Impacts of tropospheric ozone and airborne nitrogenous pollutants on natural and semi-natural ecosystems: a commentary. By R. Bobbink 161

Nitrogen deposition and ectomycorrhizas. By T. Wallenda and I. Kottke 169

Nitrogen deposition: a component of global change analyses. By R. J. Norby 189

Nitrogen on microbial and global scales. By L. van der Eerden 201

The past, present and future of nitrogenous compounds in the atmosphere, and their interactions with plants. By J. A. Raven and Z.-H. Yin 205

Uptake and fate of gaseous pollutants in leaves. By J. N. Cape 221

Air today – gone tomorrow? By H. Thomas 225

JUNE 1998 VOLUME 139 NUMBER 2

Editorial 231

The daily integral of photosynthesis by *Planktothrix rubescens* during summer stratification and autumnal mixing in Lake Zürich. By S. Micheletti, F. Schanz and A. E. Walsby 233

Localization of Fe-containing superoxide dismutase in cyanobacteria from the Baltic Sea: depth and light dependency. By A. Canini, P. Albertano and M. G. Caiola 247

Effects of synthetic plant growth retardants and abscisic acid on root functions of *Brassica rapa* plants exposed to low root-zone temperature. By J. Bigot and J. Boucaud 255

Nitrate and phosphate uptake by *Agropyron desertorum* and *Artemisia tridentata* from soil patches with balanced and unbalanced nitrate and phosphate supply. By M. Cui and M. M. Caldwell 267

Ecophysiology of salt excretion in the xero-halophyte *Reaumuria hirtella*. By T. Ramadan 273

Soluble acid invertase activity in leaves is independent of species differences in leaf carbohydrates, diurnal sugar profiles and paths of phloem loading. By A. H. Kingston-Smith, N. Galtier, C. J. Pollock and C. H. Foyer 283

Differential expression of phenylalanine ammonia-lyase genes in barley induced by fungal infection or elicitors. By T. Kervinen, S. Peltonen, T. H. Teeri and R. Karjalainen 293

Influence of cucumber mosaic virus infection on the growth response of *Portulaca oleracea* (purslane) and *Stellaria media* (chickweed) to nitrogen availability. By M.-L. Navas, N. Friess and J. Maillet 301

Spatial distribution of ectomycorrhizas and arbuscular mycorrhizas in Korup National Park rain forest, Cameroon, in relation to edaphic parameters. By B. Moyersoen, A. H. Fitter and I. J. Alexander 311

The effect of fungicides on vesicular–arbuscular mycorrhizal symbiosis. III. The influence of VA mycorrhiza on phytotoxic effects following application of fosetyl-Al and phosphonate. By N. Sukarno, F. A. Smith, E. S. Scott, G. P. Jones and S. E. Smith 321

Multiple-host fungi are the most frequent and abundant ectomycorrhizal types in a mixed stand of Douglas fir (*Pseudotsuga menziesii*) and bishop pine (*Pinus muricata*). By T. R. Horton and T. D. Bruns 331

Genetic variability in intergenic spacers of ribosomal DNA in *Pisolithus* isolates associated with pine, eucalyptus and *Afzelia* in lowland Kenyan forests. By F. Martin, C. Delaruelle and M. Ivory 341

The biology of mycorrhiza in the *Ericaceae* XX. Plant and mycorrhizal necromass as nitrogenous substrates for the ericoid mycorrhizal fungus *Hymenoscyphus ericae* and its hosts. By S. J. Kerley and D. J. Read 353

Nod factors and *tri*-iodobenzoic acid stimulate mycorrhizal colonization and affect carbohydrate partitioning in mycorrhizal roots of *Lablab purpureus*. By Z.-P. Xie, J. Müller, A. Wiemken, W. J. Broughton and T. Boller 361

The role of mycorrhiza in determining the response of *Plantago lanceolata* to CO_2 enrichment. By H. Rouhier and D. J. Read 367

Branched absorbing structures (BAS): a feature of the extraradical mycelium of symbiotic arbuscular mycorrhizal fungi. By B. Bago, C. Azcón-Aguilar, A. Goulet and Y. Piché 375

Reviews 389

Announcement 393

Instructions to Authors

JULY 1998 VOLUME 139 NUMBER 3

Tansley Review No. 98

Tree and forest functioning in an enriched CO_2 atmosphere. By H. Saxe, D. S. Ellsworth and J. Heath 395

Vulnerability of xylem to embolism in relation to plant hydraulic resistance in *Quercus pubescens* and *Quercus ilex* co-occurring in a Mediterranean coppice stand in central Italy. By R. Tognetti, A. Longobucco and A. Raschi 437

Localization of calcium ions in wounded characean internodal cells. By I. Foissner 449

Corner's rules revisited: ontogenetic and interspecific patterns in leaf–stem allometry. By C. Brouat, M. Gibernau, L. Amsellem and D. McKey 459

Changes of enzyme activities associated with the mobilization of carbohydrate reserves (fructans) from the stem of wheat during kernel filling. By J. Willenbrink, G. D. Bonnett, S. Willenbrink and I. F. Wardlaw 471

Root proliferation, soil fauna and plant nitrogen capture from nutrient-rich patches in soil. By A. Hodge, J. Stewart, D. Robinson, B. S. Griffiths and A. H. Fitter 479

Aspects of methane flow from sediment through emergent cattail (*Typha latifolia*) plants. By J. B. Yavitt and A. K. Knapp 495

Germination and post-germination growth to carrot seedling emergence: predictive threshold models and sources of variation between sowing occasions. By W. E. Finch-Savage, J. R. A. Steckel and K. Phelps 505

Cyanobiont specificity in some *Nostoc*-containing lichens and in a *Peltigera aphthosa* photosymbiodeme. By P. Paulsrud, J. Rikkinen and P. Lindblad 517

In situ studies of water relations and CO_2 exchange of the tropical macrolichen, *Sticta tomentosa*. By G. Zotz, B. Büdel, A. Meyer, H. Zellner and O. L. Lange 525

Ethylene produced by the lichen *Cladina stellaris* exposed to sulphur and heavy-metal-containing solutions under acidic conditions. By M. Kauppi, A. Kauppi and J. Garty 537

Short-term polyamine response in TMV-inoculated hypersensitive and susceptible tobacco plants. By A. L. Rabiti, L. Betti, C. Bortolotti, F. Marini, A. Canova, N. Bagni and P. Torrigiani 549

Interactions between arbuscular mycorrhizal fungi and the hemiparasitic angiosperm *Rhinanthus minor* during co-infection of a host. By D. M. Davies and J. D. Graves 555

Molecular markers for the identification of the ectomycorrhizal fungus *Tuber borchii*. By L. Bertini, D. Agostini, L. Potenza, I. Ross, S. Zeppa, A. Zambonelli and V. Stocchi 565

Effect of enhanced atmospheric CO_2 on mycorrhizal colonization by *Glomus mosseae* in *Plantago lanceolata* and *Trifolium repens*. By P. L. Staddon, J. D. Graves and A. H. Fitter 571

Molecular analysis of *Gigaspora* (Glomales, Gigasporaceae). By B. Bago, S. P. Bentivenga, V. Brenac, J. C. Dodd, Y. Pichè and L. Simon 581

First synthesis of ericoid mycorrhizas in the Epacridaceae under axenic conditions. By C. B. McLean, J. Anthony, R. A. Collins, E. Steinke and A. C. Lawrie 589

Errata 595

AUGUST 1998 VOLUME 139 NUMBER 4

Immunocytochemical studies of the infection mechanisms of *Botrytis fabae*. I. The fungal extracellular matrix in penetration and post-penetration processes. By L. Cole, F. M. Dewey and C. R. Hawes 597

Immunocytochemical studies of the infection mechanisms of *Botrytis fabae*. II. Host cell wall breakdown. By L. Cole, F. M. Dewey and C. R. Hawes 611

A seasonal cycle of cell wall structure is accompanied by a cyclical rearrangement of cortical microtubules in fusiform cambial cells within taproots of *Aesculus hippocastanum* (Hippocastanaceae). By N. J. Chaffey, P. W. Barlow and J. R. Barnett 623

Carbohydrate oxidases in ericoid and ectomycorrhizal fungi: a possible source of Fenton radicals during the degradation of lignocellulose. By R. M. Burke and J. W. G. Cairney 637

Effects of phosphorus availability and vesicular–arbuscular mycorrhizas on the carbon budget of common bean (*Phaseolus vulgaris*). By K. L. Nielsen, T. J. Bouma, J. P. Lynch and D. M. Eissenstat 647

Biomass, reproductive output, and physiological responses of rapid-cycling Brassica (*Brassica rapa*) to ozone and modified root temperature. By C. Kleier, B. Farnsworth and W. Winner 657

The daily integral of nitrogen fixation by planktonic cyanobacteria in the Baltic Sea. By L. J. Stal and A. E. Walsby 665

Effects of solar radiation on the endemic Mediterranean red alga *Rissoella verruculosa*: photosynthetic performance, pigment content and the activities of enzymes related to nutrient uptake. By A. Flores-Moya, I. Gómez, B. Viñegla, M. Altamirano, E. Pérez-Rodríguez, C. Maestre, R. M. Caballero and F. L. Figueroa 673

Thallus initiation and development in the lichen *Rhizocarpon lecanorinum*. By S. R. Clayden 685

Nutrient exchange in an Antarctic macrolichen during summer snowfall–snow melt events. By P. D. Crittenden 697

Selectivity of photobiont choice in a defined lichen community: inferences from cultural and molecular studies. By A. Beck, T. Friedl and G. Rambold 709

Host and cell type affect the mode of degradation by *Meripilus giganteus*. By F. W. M. R. Schwarze and S. Fink 721

Temporal variation in temperature and rainfall differentially affects ectomycorrhizal colonization at two contrasting sites. By R. L. Swaty, C. A. Gehring, M. van Ert, T. C. Theimer, P. Keim and T. G. Whitham 733

Ecotype differentiation and coexistence of two parapatric tetraploid subspecies of cocksfoot (*Dactylis glomerata*) in the Alps 741

Clonality and genetic variation in *Amylostereum areolatum* and *A. chailletii* from northern Europe. By R. Vasiliauskas, J. Stenlid and I. M. Thomsen 751

Reviews 759
